

Climate Impact Company Medium/Extended Range Forecast/Commentary

Issued: Thursday, September 21, 2017

Medium-range 6-10 Day Forecast Valid September 26-30, 2017 (yesterday's forecast left)

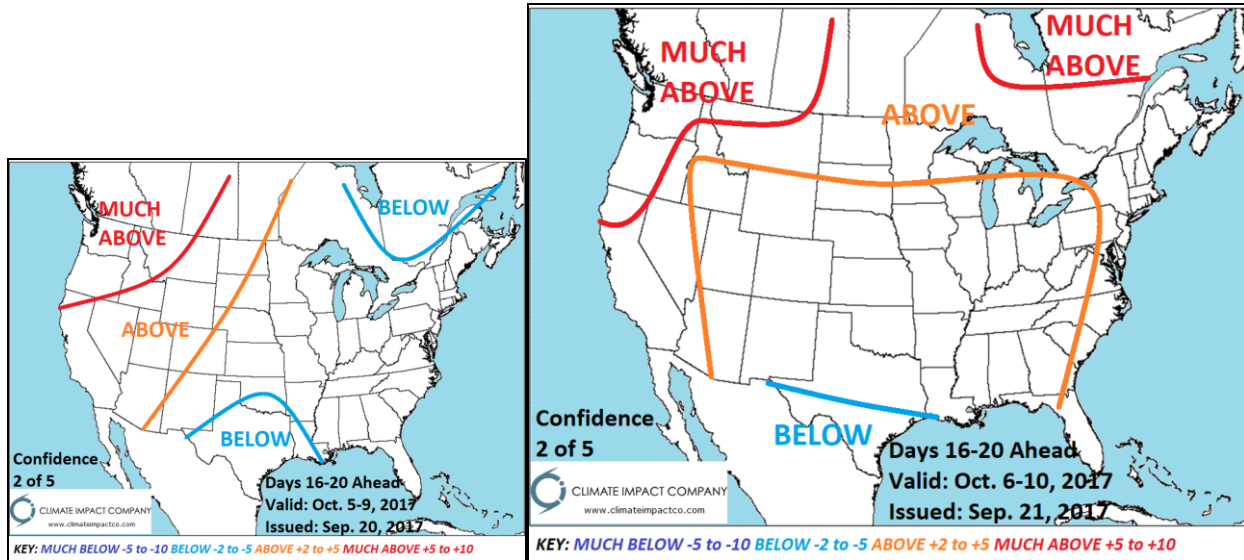

Medium-range 11-15 Day Forecast Valid October 1-5, 2017 (yesterday's forecast left)

Medium-range commentary: Rain-driven cool pattern western Plains to western Texas in the 6-10 day period while warmth lingers East and builds on the West

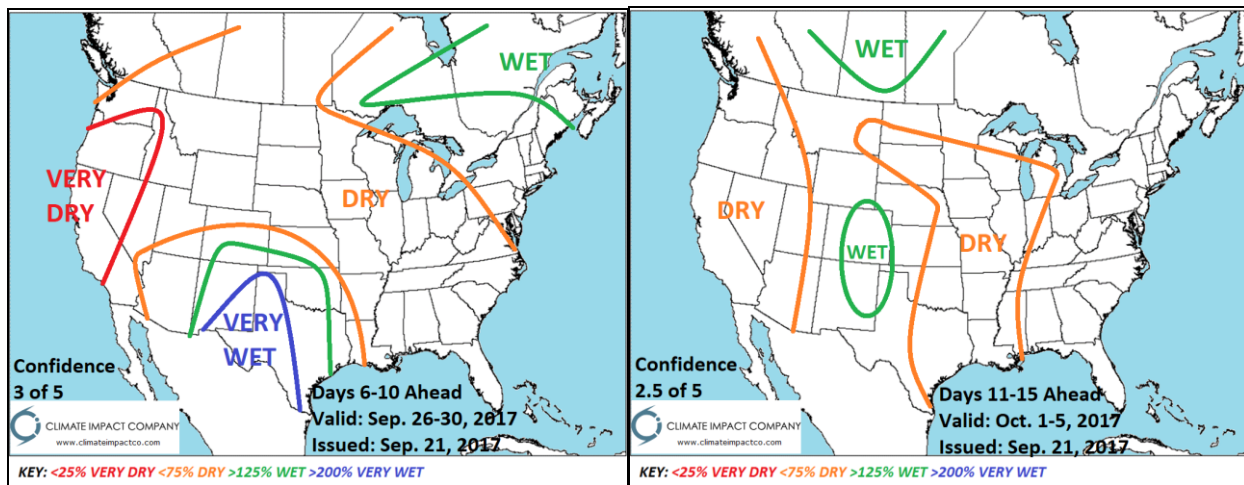

Coast. In the 11-15 day period the cool pattern stays in Texas while the West is warmer.

Extended-range 16-20 Day Forecast Valid October 6-10, 2017 (yesterday's forecast left)

Extended-range commentary: Trending warmer in Canada while the East Coast is also warmer.

U.S. Medium-range Rainfall Forecast

Discussion: Heavy rains shift into Texas while the remainder of the nation is drier than normal. A drier trend in the 11-15 day period in the Great Plains.
