

Climate Impact Company Intra-Seasonal (Week 2-4) Outlook for Russia

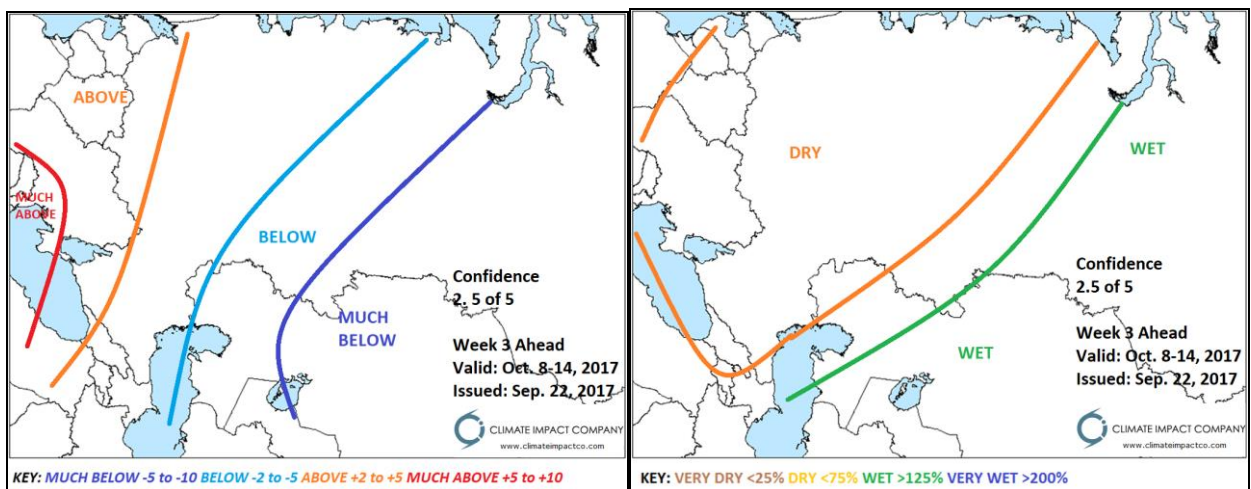

Issued: Friday, September 22, 2017

Week 2 Ahead: October 1-7, 2017

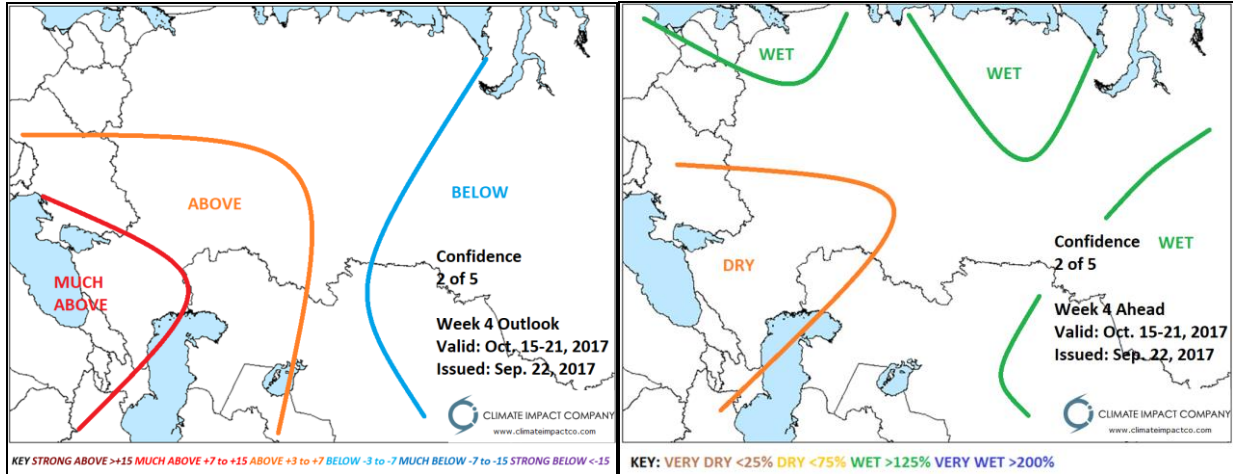

Comment: Expanding early season snow cover helps to propel a colder than normal regime over Central Russia in early October.

Week 3 Ahead: October 8-14, 2017

Comment: Continued colder than normal across still widening snow cover in Central Russia.

Week 4 Ahead: September 15-21, 2017

Comment: A low confidence forecast indicates returning warmth to Southwest Russia.

Expanding snow cover helps Central Russia Chill Evolve Early October
